Course Descriptions

XC - 4.5 mile loop: 2.5 mile fire road climb, and a 2 mile single track decent; flow-y, buff, and fast. About 1000 feet of climbing per lap.

DH - We will be using a very fast & fun route featuring some brand new sections of trail which have been recently cut especially for downhill racing. The riders will face high speed open sections that lead into some very low speed parts of the trail featuring off camber and twisting turns of a new cut riding route. Ride safe & have fun!

STXC - 0.7 mile loop: A ripping drag-race of a course. One long paved straightaway, a short climb, and then a single track decent. Extremely spectator-friendly, running straight through the parking area.
